CRYSTAL EYE SERIES 50

Australia's first Extended Detection & Response (XDR) solution and the World's most powerful XDR platform

Our Series 50 XDR security appliance is the ideal solution to defend against cyber threats supporting multiple internet connections of up to 10Gb/s each.

Crystal Eye 50 delivers powerful, flexible protection for enterprise environments across multiple devices. Combined with our range of integrated services, our high performance rack mount devices are an easy to deploy, easy to manage, effective security solution.

Through Crystal Eye's powerful threat intelligence system, the platform processes over 19-million Indicators of Compromise (IoC) per day using real-time visibility & analytics to enable automated actionable intelligence.

Full Network Control

Complete XDR Platform

Red Piranha

8	Integrated XDR capabilities	4	Network Security Monitoring
C	Automated Actionable Intelligence	*	Advanced deep-packet inspection and decryption
	Multi-layered security delivering defence in depth		Instant SOC & embedded SIEM solution
24	Built-In Compliance Feature Set		On-demand PCAP forensic analysis and logging
	Risk Assessment Reports		Gateway application whitelisting
	Vulnerability Scanning	٩٩٩	Extended log processing, retention & policy management controls

Firewall throughput:	34Gbps	The maximum capacity between two ports of the same bandwidth with no packet loss.
IDPS throughput:	2.5Gbps	The maximum volume of data that can be processed by the Intrusion Detection & Prevention modules with no packet loss.
True Security Throughput (TST):	1.4Gbps	The lab tested peak load with all security features turned on and processing a typical enterprise network profile: 76% http(s) web browsing, 12% real-time applications (VoIP, Video conferencing) and 12% other traffic types.

SPECIFICATIONS

Processing System Intrusion Prevention System Features Intel Generation 10 i-7-10700 • 5 managed rule sets, comprising of 30k+ rules updated daily from (8 cores, 16 threads, 4.9Ghz) the latest threats Chipset Z490, Socket 1200 HTTP/TLS/DNS Logging Actions – Drop, Block, Reject, Pass · Auto IPS Updates from Red Piranha threat intelligence sharing platform **Memory Capacity** Protocol Anomaly Protection RAM: 64GB DDR4 2666MHz · SCADA Aware · VoIP and SIP protocol reporting Networking capacity Easy tuning in dashboards to reduce false positives ·1x Intel Gb WAN port, 1x 10Gb WAN port • 4 x Intel Gb LAN port, 4 Intel 10GB LAN • 2 x DUAL SFP 10Gb Application Filtering Features · Layer 7 (Application) & Layer 8 (User) Control and Visibility Inbuilt Application Category Database Visibility and Controls for HTTPS based micro-apps like 6x USB 3.2 Facebook chat, YouTube video upload 4x USB 2.0 **SD WAN Features** Stateful Inspection Firewall Features • TCP & UDP Tunnelling · Authentication – Active Directory, LDAP, RADIUS, Local Multiple Security Zones · Location-aware and Device-aware Identity-based Access · Multi-layered Client Authentication - Certificate, Username/Password · Lightweight SSL VPN Tunnelling Client · Control Policy · Security Policies – IPS, Web Filtering, Application Filtering, • TCP based Application Access – HTTP, HTTPS, RDP, TELNET, SSH Anti-virus, Anti-spam and QoS **Bandwidth Management Features** · Policy based Source and Destination NAT, Gateway Specific NAT Policy • QoS Policies · MAC & IP-MAC Filtering · Guaranteed & Burstable bandwidth policy Spoof Prevention Application & User Identity based Traffic Discovery Data Transfer Report for multiple Gateways Gateway Anti-Virus & Anti-Spyware Features **Networking Features** · SSL Mismatch Detection · Cloaked URL Detection · Automated Fallover/Failback · Virus, Worm, Trojan Detection and Removal Interface types: Alias, Multisport Bridge, LAG (port trunking). · Spyware, Malware, Phishing Protection VLAN, WWAN, TAP Scans HTTP, HTTPS, FTP, SMTP/S, POP3, IMAP, IM, SMB, VPN Tunnels Multiple DHCP Servers support Customised Individual User Scanning • Supports HTTP proxy, Parent proxy with FQDN • Scan and deliver by file size Dynamic Routing: RIP v1&v2, OSPF, BGP Block by file types · IPv6 Support: Dual Stack Architecture: Support for IPv4 and IPv6 Protocols · IPv6 Route: Static and Source Administration & System Management Features Inbound and Outbound Scanning · Real-time Blacklist (RBL), MIME header check · Web-based configuration wizard · Filter based on message header, size, sender, recipient · Role-based Access control Subject line tagging · Firmware Upgrades via Web UI · IP address Black list/White list • Web 2.0 compliant UI (HTTPS) · IP reputation-based Spam filtering Web Filtering Features Internal Database • More than 130 categories Microsoft Active directory connector Auto category updates Internal active directory server Exception list IP or hostname based Storage System/Optional Extended Storage (max) Controls based on URL, Keyword and File type 500GB NVMe/16TB SSD Protocols supported: HTTP, HTTPS · Block malware, Phishing, Pharming URLs · Block java Applets, Cookies, Active X, Google Cache pages · Data leakage control by blocking HTTP and HTTPS upload WxDxH 428mm(w) 593.2mm(d) 88.6mm(h) · Banned phrase list, YouTube for Schools Weight TBA Custom Denied Message per Web Category **General Details** SD WAN Support 1 x HDMI port, x4 USB 2.0, x4 USB 3.2 type A Gen 2 10Gbs · IPSEC VPN for site to site communications X2 USB 3.2 type C NVMe M.2 SSD · Authentication – Active Directory, LDAP, RADIUS, 6Gb/s SATA 3 storage subsystem · Multi-layered Client Authentication - Certificate, Username/Password Lightweight SSL VPN Tunnelling Client TCP based Application Access – HTTP, HTTPS, RDP, TELNET, SSH Voltage spike protection Certifications: FCC, CE Al and Automated Actionable Intelligence Power Input Voltage 110 VAC/220-240 VAC · Al rule matching to detect anomalies in network traffic Automatic defence rules from over 19 million IOC's processed daily

- · Easy Device application mapping
- Ability to whitelist known good device Applications from the gateway
- · Protect against Zero-day attacks
- · Deal with encrypted malicious traffic with one click

· Machine learning smart detection of network based SSH attacks

End Point Application Whitelisting
